

IMAGING SERVICES

Hawthorne MRI

- High-field, Short-bore Magnetic Resonance Imaging (MRI)

Our center provides state-of-the-art, high-quality diagnostic imaging services and patient-centered care.

It is our goal to act as an imaging resource that serves as an extension of area medical practices.

We strive to exceed your expectations by providing a comfortable environment that brings together the technology, imaging skills, expertise, responsive service and excellent care physicians require, and patients deserve.

To schedule an appointment, simply call us at 708.391.8300

World Class Technology...

Premier Setting...

Uncompromising Care...

HIGH-FIELD, OPEN BORE MRI

We are pleased to offer the most comfortable MRI experience for ALL TYPES of patients and the high-field strength performance of 1.5 Tesla.

Quality, Accuracy, & Comfort

- High power: the **Siemens Espree MRI*** (1.5T) delivers exceptional quality images, so patients can rest easily inside and physicians can rest easy with a confident diagnosis.
- The extra-large circumference accommodates patients of all sizes, including the elderly, children, and patients weighing up to 550 lbs.
- Perfect for those who get anxious or highly claustrophobic during an MRI.
- One foot of spacious headroom; patients won't feel like they're nose-to-nose with the top of the magnet.
- Due to its short design, 60% of exams can be done with patients' heads outside of the system.
